

## ATHLETE PROFILES - Introduction

### IAAF WORLD ATHLETICS SERIES ATHLETES: 1999 onwards:

The statistics contained in this Athlete section only concerns athletes who have competed in IAAF World Athletics Series competition since 1999.

The data represents the major championship highlights for each athlete from 1999 onwards and is *not* meant to represent a definitive career summary.

IAAF Statistics and Documentation Senior Manager Ottavio Castellini will be pleased to amend any information about these World Athletics Series athletes which is incorrectly shown, however, given the many 1000s of biographies contained in this section, additional information will *not* be added unless it directly relates to results of IAAF World Athletics Series competitions since 1999.

*Also available in our athlete profiles is limited career data for some other athletes which on an ad hoc basis over the years has also been stored in the IAAF database, and again that data is not meant to represent a definitive career summary of the athletes concerned. We apologise that no updates can be made to these Athlete Profiles unless it directly relates to results achieved at IAAF World Athletics Series competitions since 1999.*

We hope you enjoy the statistical data which we have made available.

---

Please note all the other related information - *news stories, features, Focus on Athlete biographies, photographs, audio and video* - which you'll find on each Athlete Profile page is not administered by the IAAF Statistics and Documentation Division.

Please use the [Contact IAAF page](#) and select the relevant subject area in the drop down menu to send any comments to the relevant IAAF department.
